Re: HRN Broadcasting, Inc.
WZGV(AM), Cramerton, North Carolina
Facility Identification Number: 26179
BP-20081224AAO (Construction Permit)
BL-20100303AGE (License Application)
Program Test Authority

Dear Mr. Ramsey:

This is in reference to the above-captioned license application and the request for program test authority of WZGV(AM), Cramerton, North Carolina.

Authority is granted WZGV(AM) to conduct daytime and nighttime program tests in accordance with Construction Permit BP-20081224AAO and Section 73.1620 of the Commission's rules to operate on 730 kHz with a daytime nominal power of 10 kilowatts and a nighttime nominal power of 0.190 kilowatts. Program tests are authorized with a daytime antenna input power of 10 kilowatts (antenna current of 27.0 amperes) and a nighttime antenna input power of 0.190 kilowatts (antenna current of 3.72 amperes).

A review of the license application reveals the following deficiencies:

1. Condition # 6 was not fulfilled. Specifically, additional daytime spurious measurements need to be made on 540 kHz and 1810 kHz for WZGV(AM) and WCGC(AM) and shown to be below -80 dB of the reference fields.
2. The antenna coordinates in Item # 9 of the FCC Form 302 (35°15'05" NL; 81°03'26"WL) disagree with the antenna coordinates specified in the construction permit (35°15'04 NL; 81°03'25"WL).

Further action on the license application will be withheld for thirty (30) days from the date of this letter in order to provide an opportunity to file a curative amendment. Failure to respond or file an amendment within this time period may result in the dismissal of the application pursuant to 47CFR Section 73.3568(a)(1).

Sincerely,

Son Nguyen, Supervisory Engineer
